Welcome

Central Micro, based in Markham Ontario, is a leading supplier of computer products in the Greater Toronto Area. Established in 2004 as a Canadian trader of computers and peripherals, we have continued to grow by focusing on providing quality deals and after-sales-support at aggressively low prices. Over the years, we have successfully expanded our product lines to include a wide variety of computers, laptops, printers, servers and accessories both off-lease and open box.

To view our flyers and price-list, please login on the right or just REGISTER for a new account and after approval, you will be able to access the flyers.
